50 years OF SERVING SOUTHERN BUSINESS

THE year 1946 is the fiftieth Anniversary for the Hill Directory Co., Inc. Half of a century of Service to cities and industries of the South.

WE HAVE grown a lot in fifty years, and we plan to keep on growing. We feel younger than ever. Our real future still is ahead of us . . . because the real future of our Country lies ahead.

IN 1896 J. L. Hill, the Founder of this Company, laid down a fundamental policy of Good Service . . . Honest Service. That policy still is **basic** with us. Our growth in experience, in skill, in size, came about only because we built on that solid old foundation of Service.

SO, ON OUR fiftieth Anniversary, we thank you for doing business with us . . . for guiding us along the way. We want any and all of our Services to be even more valuable to you in the years to come . . . and we pledge our best efforts to that end.

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1945-46 edition of the Charlotte City Directory. A new feature, the Honor Roll, marks this edition.

Confidence in the continued growth of Charlotte's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Charlotte to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Charlotte Directory will fulfill its mission as a source of authentic information pertaining to the city.

Seven Major Departments

The seven major departments are arranged in the following order:—

THE HONOR ROLL, a new feature, in the preface of the Directory, is an alphabetical list of the Charlotte commercial, industrial and professional concerns that have demonstrated their confidence in the City Directory as an advertising medium, and thereby insured its regular publication.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 29 to 660, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Charlotte, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 136, on white paper, contains the advertisements of leading manufacturing, business and professional interests of Charlotte. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Charlotte, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 801 to 868, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE POSTAL UNIT GUIDE, on pink paper, follows the Classified and is separately paged from 1 to 4. This section is reproduced verbatim from copy supplied by the postal authorities.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, follows the Postal Unit Guide and is separately paged from 5 to 167. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, follows the Directory of Householders.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Charlotte.

The Charlotte Directory Library

Through the courtesy of the publishers of the Charlotte City Directory, a Directory Library is maintained in the offices of the Charlotte Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

CHARLOTTE

"Queen City of the South"

NOW A CITY OF MORE THAN 100,000 POPULATION
(Population within a five-mile radius, including Charlotte, 150,000)

(Courtesy The Charlotte Chamber of Commerce, Inc., Charlotte, N. C.)

Charlotte is located in the center of a territory recognized as the most rapidly developing industrial and commercial section in the South. The eyes of the commercial as well as tourist world are focused on the Piedmont Carolinas, the section of which Charlotte is the geographic and industrial center.

The city that had the greatest increase in population between 1930-1940 was Miami, Fla., with the following cities in consecutive order: San Diego, Calif.; Washington, D. C.; Jacksonville, Fla.; Houston, Texas; and CHARLOTTE, N. C. Charlotte stood sixth in the nation, with a gain of 21.4%. There are now in the U. S. only 92 cities of more than 100,000 population, and Charlotte is the 91st city, with 100,899 inhabitants in 1940. In 1930 its place was the 101st, so, then, it moved up ten places within the ten-year period.

Hard-surfaced roads radiate from Charlotte in every direction. Eleven highways enter Charlotte. Three national highways cross North Carolina State highways at Charlotte. North Carolina has 9,000 miles of paved roads. Two million people can come to Charlotte from a radius of 100 miles by automobile, transact business and return home on the same day.

Charlotte is the distributing center of the Carolinas and is the natural radial point for the railroads of this section. There are eight railway lines radiating from Charlotte, this situation making possible a maximum of railway trackage for new industries of various kinds. Charlotte has an abundance of skilled and unskilled labor willing to give an honest day's work for a reasonable wage. Charlotte is not disturbed by continued labor difficulties, strikes and labor agitation.

The quality of Charlotte's water is excellent. The supply is abundant, with a modern filter plant, completed at a cost of \$1,000,000 or more, and a daily capacity of 16,000,000 gallons and an average daily pumpage of 8,500,000 gallons.

Electricity, ample and at low rates, has been probably the greatest factor in the industrial and commercial development of Charlotte.

Charlotte's rapid growth as a manufacturing and business center has developed financial institutions commensurate with the demands of the rapidly-growing city and section which they serve.

Charlotte is alive, aggressive and progressive.

Charlotte citizens cooperate in matters which prompt the civic, commercial, religious and industrial welfare of the community.

Charlotte is a friendly city. It welcomes the newcomer, be he from the North, West, East or South.

HISTORY

Charlotte, the county seat of Mecklenburg, named for Princess Charlotte of Mecklenburg-Schwerin, wife of George III of England, was incorporated as a town in 1768. The name Mecklenburg was given to the county in honor of the Queen's birthplace. The early settlers were made up of Scotch-Irish from Pennsylvania and Virginia; Germans from the same sections; and English, Scotch, Germans, Huguenots and Swiss from the South by way of Charleston.

A court house, constructed of logs, had been built in the town a few years previous to its incorporation, and the county court was held there, which probably accounted for Charlotte being selected as the county seat. The court house was located at the intersection of the streets now known as Trade and Tryon.

Charlotte is famed as the place where the first Declaration of Independence was made on May 20, 1775.

Mecklenburg Declaration of Independence

"Resolved: That we, the citizens of Mecklenburg County, do hereby dissolve the political bonds which have connected us with the mother country; and absolve ourselves from all allegiance to the British Crown, abjuring all political connection with a nation that has wantonly trampled our rights and liberties, and inhumanly shed the innocent blood of Americans at Lexington.

"Resolved: That we do hereby declare ourselves free and independent people; that we are and of right ought to be a sovereign and self-governing people, under the power of God and the general congress; to the maintenance of which independence we solemnly pledge to each other our mutual cooperation, our lives, our fortunes, and our most sacred honor.

"Resolved: That all officers, both civil and military, in this county, be entitled to exercise the same powers and authorities as heretofore; that every member of this delegation shall henceforth be a civil officer and exercise the powers of a justice of the peace, issue process, hear and determine controversies according to law, preserve peace, union and harmony in the county, and use every exertion to spread the love of liberty and of country, until a more general and better organized system of government be established."

Early Schools and Education

The people of Mecklenburg brought with them, in the settlement of their new country, the love of education. The first schools were conducted in the homes of the teachers of their patrons. Prior to the time of the American Revolution a number of school buildings had been erected. Queens College, or Museum, located within Charlotte, and within the territory of Sugar Creek Church, was the most noted school of Colonial times in Mecklenburg County. This college was located on a lot on South Tryon Street, where later, for many years, stood the Mecklenburg County Court House.

Early Churches and Religion

Seven churches of importance in Colonial days in Mecklenburg County were: Sugar Creek, Rocky River, Poplar Tent, Hopewell, Steel Creek, Providence and Centre. The congregations of these early churches were composed of men and women of strong character, high motives and dignified demeanor. To their influence throughout the community and upon succeeding generations may be attributed the fine type of Christian citizenship which has characterized the people of Mecklenburg County. Many members of the families composing these seven Colonial churches have gone out to other sections of the U. S., particularly to the Southwestern and Middle Western sections of the country, to establish homes and to carry with them the fine ideals of citizenship and Christian influence of their Mecklenburg ancestry. Numbers of the descendants of these Mecklenburg citizens who moved to other parts of the U. S. make pilgrimages to the venerable churches to read upon tombstones in the old burying grounds records of the lives of their forefathers. Upon anniversary occasions of these historic churches, all-day services are held and men and women from many distant states are numbered among the persons in attendance.

CHARLOTTE TODAY

More than 30 years ago the South began to arouse from her bed of rich, deep traditions and better herself. There is a new South today—an onward-driving pulsating South in industry, agriculture and finance.

Fundamentally successful industries develop best where abundant raw materials, mechanical power and stable population combine. Tremendously rich in natural resources, power and raw materials, the South has marched forward with seven-league boots, and today the economic advantages resulting from the development of her resources are leading the trail of industry southward.

This is true, not only in the textile field, where advantageous conditions of power, climate, labor and living conditions at the source of raw materials have already transferred the center of industry from New England to the South, but in other lines of diversified manufacturing as well.

North Carolina today is the pacemaker of the South; it leads in textile manufacturing and hydro-electric power development, and Charlotte is the

center of a textile manufacturing territory having 770 mills, operating over 10,000,000 spindles and consuming more cotton than any other section in the world.

Charlotte is the center of one of the largest hydro-electric developments in the U. S., the total horsepower developed and in immediate prospect of developing being more than a million.

It is the largest center in the South for textile mill machinery and equipment, practically all the large companies in the U. S. and England handling their entire business in the South through Charlotte offices and plants.

It is the "Southern Market" for dyestuffs, laboratories and offices being maintained here by the leading dye corporations of the country.

Charlotte has annual payrolls of over \$12,750,000 from 310 widely diversified manufacturing and industrial plants.

Charlotte's Greatest Asset

The climate of Charlotte is outstanding, and can be classed as the city's leading asset. The U. S. Weather Bureau has made records of Charlotte's climate for the past 45 years and the fact is developed that the people of this city live the year 'round in a temperature which averages 60.2 degrees. The

mean maximum temperature is 69.5 degrees and the mean minimum is 50.9 degrees. The vicinity is favored in wind and rain, in sunshine and shadow. Agricultural activities may be pursued practically without interruption throughout the year.

Manufacturers and Manufacturing

Charlotte has many distinct advantages to offer the manufacturer—four competing rail lines, low freight rates, pure water and a convenient location. Manufacturers should investigate this thriving city. Living conditions are ideal. Climate is mild and pleasant, and schools are among the finest in the South. Excellent hotels and shops. Cordial social life. Several excellent golf courses.

Power

Charlotte is the home of the Duke Power Co., operating one of the best steam and hydro-electric systems in the world. Southern electric companies are tied up into a great super-power zone, and abundant "white coal" assures ample power at low cost.

Labor

Charlotte's labor is of the finest in the country today—native, white, sober, industrious. Labor troubles are practically unknown and the labor turnover is small.

Textiles

Here the textile development of the South is centering. Seven hundred seventy mills operate 10,000,000 spindles within 100 miles, and a great business has grown up in supplying these mills with dyestuffs, cotton, machinery and equipment of all kinds.

Airports

Charlotte's one municipal and two privately-owned airports have facilities to meet all the needs of any flier. The city has more privately-owned planes than any other city in the South.

Douglas Airport, owned by the City of Charlotte, is in the ninth year of operation, and has shown a rapid and continuous growth in services to the public. A radio beam tower and control building were erected on the airport property in 1939. This enables practically all planes, flying under adverse weather conditions, to land safely at the airport.

The U. S. Army established an Army Air Base at the Municipal Airport, with an expenditure of more than \$2,500,000 in the development of this base and the airport, and this will be enlarged later.

Eastern Air Lines operate seven planes daily through Charlotte. The Delta, State and Southeast lines also operate through the city. Over 2,500 visiting planes, excluding air liners, have landed at Charlotte in one year.

As a Manufacturing Center, Charlotte Offers:

1. Low power rates for manufacturing purposes.
2. Close proximity to the sources of all material for finished products.
3. Cotton, cotton yarns, cottonseed, cotton oil, tobacco, peanuts, kaolin, wood pulp, lumber, etc.
4. Logical location for a manufacturer of commodities for export through the ports of Norfolk, Wilmington, Charleston and Savannah.
5. A very desirable type of high-class labor available to manufacturers.
6. Mild climate conditions throughout the year. There are nine months of exceptional open-season weather.
7. The adequate transfer facilities of four railroads, with daily terminal facilities of 5,200 carloads.
8. Desirable living conditions and unusual residential developments.

Trade Center and Ideal Distribution Point

Charlotte has a greater population within a 50-mile radius than Richmond; a greater population within a 100-mile radius than Atlanta. Charlotte is the geographical and business center of the Carolinas.

	50-mile radius	100-mile radius
Richmond	468,000	2,124,000
CHARLOTTE	583,000	1,972,000
Atlanta	711,000	1,904,000

Charlotte's Trading Territory

Population of city and suburbs, approximately	150,000
Population within 25-mile radius,	250,000
Population within 50-mile radius,	583,000
Population within 75-mile radius,	1,131,000
Population within 100-mile radius,	1,972,000
Population within 150-mile radius,	4,500,000

Charlotte offers the finest opportunities of today as the logical location for new industries, distributors, wholesale houses and business interests of every description that wish to take advantage of the manufacturing and trade opportunities in this rapidly-developing section, the richest trading territory in the South.

Housing projects, named the Fairview Home (for colored) and the Piedmont Courts, and in addition, two new hospitals (Presbyterian and Memorial) were started, with building permits totaling more than \$2,364,000. This explains the high building figures for 1939. The 1940 total building permit figures show what was done in private building that year, before wartime curtailments began.

CHAMBER OF COMMERCE INVITES INQUIRIES

The Charlotte Chamber of Commerce extends an invitation to outsiders to visit this city and experience the Charlotte spirit of good-will and cooperation. The Chamber, with C. O. Kuester as business manager, gladly supplies information regarding Charlotte to all who write or call. The Chamber of Commerce also invites the outside public to tune in on WBT, Charlotte's 50,000-watt radio broadcast station, one of America's finest and best. Also on WSOC and WAYS (NBC Blue Network).

QUEEN'S COLLEGE

Queen's College has an interesting history of 89 years. Many forces have contributed to its development. Founded in 1857 by a group of Christian leaders, the institution purposes to send into the nation to strengthen our civilization and to lead new generations, a continually-flowing procession of educated young women, with intellects trained to think, with personalities graced with cultured charm, and with lives motivated by Christian principles and loyalty.

The College is fully accredited by the North Carolina College Conference and by the Southern Association of Colleges and Secondary Schools. It is the Presbyterian Educational Association of the South.

The College campus is located in the heart of Myers Park, one of Charlotte's most beautiful residential sections. The city, the largest in the two Carolinas, offers much to students through the many civic organizations which contribute to the educational and cultural life of the community.

The College accepts the liberal arts curriculum as basic, a program of education proved effective for more than 300 years. Diverse in scope, the curriculum includes instruction in the traditional liberal arts and sciences, in pre-vocational subjects, and in the fine arts.

All departments of the College function in vital connection with the community. From this association, students gain in practical and cultural values, and in turn they contribute of their resources.

MECKLENBURG COUNTY

Gained 23,855 Population, 1930-1940

Mecklenburg County, according to the 1940 U. S. Census, had a population of 151,826, an increase of 23,855 over 1930. The increase was approximately 18% for the ten-year period.

The population of Charlotte was established as 100,899 by the 1940 Census, an increase of 18,224 over 1930. This means that all but 5,631 of the increase in the county's population was within the city limits of Charlotte.

The Census revealed that Mecklenburg County had 3,136 farms.

The population of Charlotte Township, which includes a fringe of land all the way around the city limits, was set at 113,163. Nearly all the county's gain was in the city and Charlotte Township.
